

2019-02-15 Semantics Meeting (als)

Meeting Details

- Moderator: ssm
- Protocol: als
- Attendees:
 - aas
 - als
 - lgr
 - nre
 - rvh
 - sdo
 - ssm
 - cds
- Start: 10:16
- End: 10:30

Agenda

- [Function Naming in Code Generation \(ssm\)](#)
- [Berry Esterel Compiler Integration \(als\)](#)

Function Naming in Code Generation (ssm)

- Code Generators can now be configured to include the model name in the functions
- It is also possible to define own names for tick and reset functions.
- Naming currently only supported in statebased and netlist-based backends
 - Priority-based not yet adapted to new code generators

Berry Esterel Compiler Integration (als)

- The Berry Esterel Compiler is now integrated into KIELER
- Can be executed via KiCo
- Integrated into the Simulation
- Automatically includes time measuring
