

# EasyChair Student Tutorial

We use the [EasyChair](#) system to manage our seminar. EasyChair is a popular system to manage conferences. Should you end up as a PhD student, it is likely that you won't get around using it at some point in your career.

This section describes how to use EasyChair over the course of the seminar.

## Registration

If you do not have an EasyChair account (which is most likely), you need to sign up for an account first.

Go to the [registration page](#). First solve the very challenging Captcha and then fill in your personal data.

Use your university mail address!

## Program Committee (PC)

During the seminar (usually after the second deadline) you will receive an invitation into the Program Committee (PC) of the seminar. This the a prerequisite for the reviewing process. Hence, it is **important that you accept the invitation** as soon as you receive it.

The invitation mail features a response link. Click on that link, make sure that "I accept the initiation" is selected and click on *Answer Invitation*. You do not need to provide a response message (*Email body*) or specify the *Email subject*.

☒ I accept the invitation.

☐ I decline the invitation.

☐ I will decide later.

## Different roles in EasyChair

As soon as you are part of the PC, you have different roles in which you can access/enter the seminar page on EasyChair. The roles have different purposes and permissions.

Role	Purpose
Author	Create and update your submission
PC member	Create and update reviews

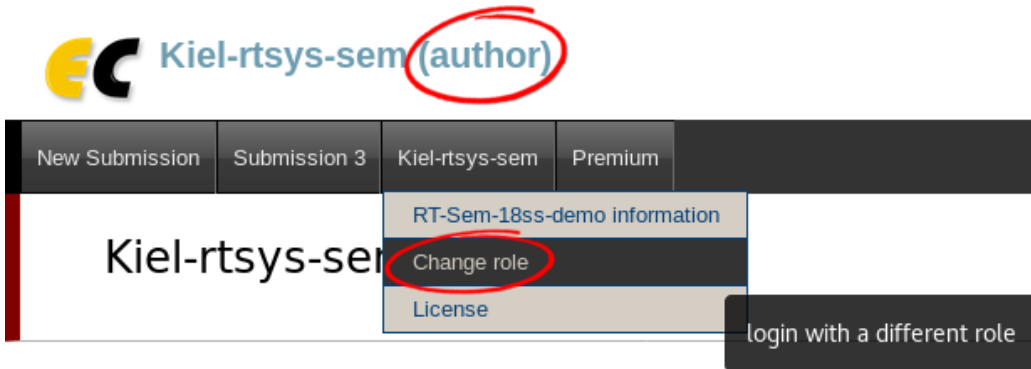

This means you cannot edit your submission when you are in the *PC* role and you cannot create reviews in the *Author* role.

## Changing your role

When you access the EasyChair page of the seminar you are usually asked in which role you want to enter.

Your current role is always displayed in parentheses after the seminar title at the top of the page.

You can change your role by accessing the conference menu (e.g. Kiel-rtsys-sem-18ws) in the top bar and selecting *Change role*.

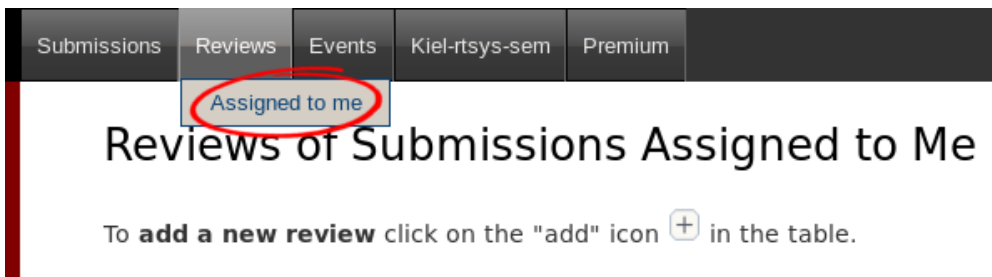

You can log in to Kiel-rtsys-sem using any of the following roles:

- [PC member](#)
- [author](#)

## Writing Reviews

After the deadline for the review versions, you will be assigned as reviewer for two other submissions. You will be notified by mail when the assignment is done. The mail will not contain a direct link. Hence, visit the EasyChair page of the seminar, but this time enter in your **PC member role**.

Click on *Assigned to me* in the *Review* menu and download the paper you are assigned to review (submission column with file/pdf symbol). When you have read the paper and you are ready to write the review click on the + button to create your review.

#	Submission	Details	submission	Add new review
2	<First Name> <Last Name>. <Paper Title>			

Complete the review form and submit it. Note that the form may have additional fields you need to fill out.

## Paper and reviewer information

**Title:** <Paper Title>  
**Authors:** <First Name> <Last Name>  
**PC member:** <First Name> <Last Name>

## Evaluation

**General evaluation (\*).** Please provide a detailed review.

This paper is great, one of the greatest.  
You will make this seminar great again!

**Detailed comments.** You may provide detailed comments on, for example, spelling mistakes or grammar issues.

In line 1, "Despite the constant negative press covfefe.", I assume you misspelled coverage or is covfefe a word?

**Submit review**

If you want to update your review, navigate to the *Assigned to me* page but **do not create a new review**. Click on the link with your name in the new (*Update review*) PC member column to edit your review.

## Viewing Reviews of your own Submission

When all reviews are finished, you will receive an Email with the reviews for your paper.

Alternatively, you can log in with your **Author role** and access the reviews on your submission page (*Submission <your number>*).
